

South Africa's specialist STEM store, at home and in the classroom

We sell hands-on science, coding and robotics kits for kids aged 3 to 16, and we help schools put them to work.

OUR VISION

To ignite a passion for science, technology, engineering and mathematics.

OUR MISSION

To put well-made STEM products and programmes in the hands of young learners. Children who meet science and engineering early, through play, stay curious about how things work. STEM is for everyone, whatever their background or ability.

FOR FAMILIES

Every product lists its age range, skill level and what a child will learn, so a kit can be matched to the child who will build it.

FOR SCHOOLS

Trained facilitators, CAPS-aligned lesson plans and classroom kits built for group work, with bulk pricing for schools from 10 units.

Every order is picked and packed by hand in our Cape Town warehouse.

THE TEAM

• Dave New	Founder
• Dylan Brent	Marketing director
• Larize de Wet	Operations & procurement
• Hayley New	Brand & marketing

REFERENCES

Named partners, educators and customers, in their own words.

“

CREATESPACE has consistently demonstrated exceptional service, setting themselves apart as the best in their field. Their dedication and professionalism have made every interaction a positive experience. It is truly an honour to collaborate with CREATESPACE, and their outstanding support continues to strengthen our working relationship.

Erus Pretorius

CEO, Robotixkids

“

CREATESPACE is our go to for high quality hardware and accessories. Their extensive range and technical reliability make them an invaluable partner, and their expertise and efficient service allow us to focus on our mission to deliver world class STEAM education. Partnering with the CREATESPACE team has been a game changer for us.

Simon Robinson

CEO, Inspire Africa

“

We purchased just over 100 robotics kits last year, and the quality has been excellent. Our school clients really loved them, they've been engaging, reliable, and a great addition to the learning experience.

Zami Mokhali

Founder, JustMi-Kid

“

Our homeschool group have loved working with their Makerzoid kits this term. They have found the builds to be challenging and interesting and have been able to apply creativity in adding on their own ideas.

Michelle Edwards

Educational Psychologist, Durban

“

There are not many companies left that go out of their way to ensure a satisfied customer, this is one of them.
